Places Frequented for Dental Care* by the Latino Community of Del Norte, Humboldt & Mendocino Counties, CA Smith California Center for River **DEL NORTE Casquet** Rural Policy (CCRP) Methods: During 2006-07 54 key informant interviews were conducted with people > age 18. Study Area Participants included individuals who work closely with the Crescent Latino community, health providers who serve Latinos, and City Latino community leaders throughout the Mendocino (N=20), Del Norte (N=14) and Humboldt County (N=20) region. Trinity County was not included in this study due to the small percentage of Latinos living in the county (4.0 % of tot. pop.). SONOMA Frequency = Number of times a particular location was mentioned. Note: Informants could name multiple geographic locations. The qualitative analysis sought to identify multiple themes and codes for each question asked. Therefore, the number of codes does not reflect the number of people interviewed, but rather the range of responses provided for each question. GIS & Cartography: R. Degagne, 2007 www.humboldt.edu
