Places Used* by the Latino Community of Del Norte, Humboldt & Mendocino Counties. (Sampled counties are shown in yellow.)

Methods: During 2006-07 54 key informant interviews were conducted with people > age 18. Participants included individuals who work closely with the Latino community, health providers who serve Latinos, and Latino community leaders throughout the Mendocino (N=20), Del Norte (N=14) and Humboldt County (N= 20) region. Trinity County was not included in this study due to the small percentage of Latinos living in the county (4.0 % of tot. pop.).

Places Used* by Latinos, by Type:
Locations are shown by type of goods and services obtained, generalized to community-level. Map depicts presence, not frequency.

Data Source: CCRP Latino Project, 2006-7*; U.S. Census Bureau SF1, 2000.

* Data generated from CCRP Latino Survey, Q16: Where do members of the Latino community most often obtain goods and services?

Data Tabulation: Informants could provide multiple answers to a particular question. The qualitative analysis sought to identify multiple themes and code for each question asked. Therefore, the number of codes does not reflect the number of people interviewed, but rather the range of responses provided for each question.
