

# CCRP Rural Health Information Survey: Respondents' Average Travel Time to Health Care<sup>1</sup>, 2006

**Study Methods:** The Rural Health Information Survey (RHIS) was conducted by the California Center for Rural Policy in the fall of 2006. A total of 23,606 surveys were mailed to a random sample of post office box holders in the four counties of Del Norte, Humboldt, Trinity and Mendocino. The total number of returned surveys was 3,003 for an overall response rate of 12.7%.

## Respondents' Average (Mean) Travel Time to Health Care, in Minutes

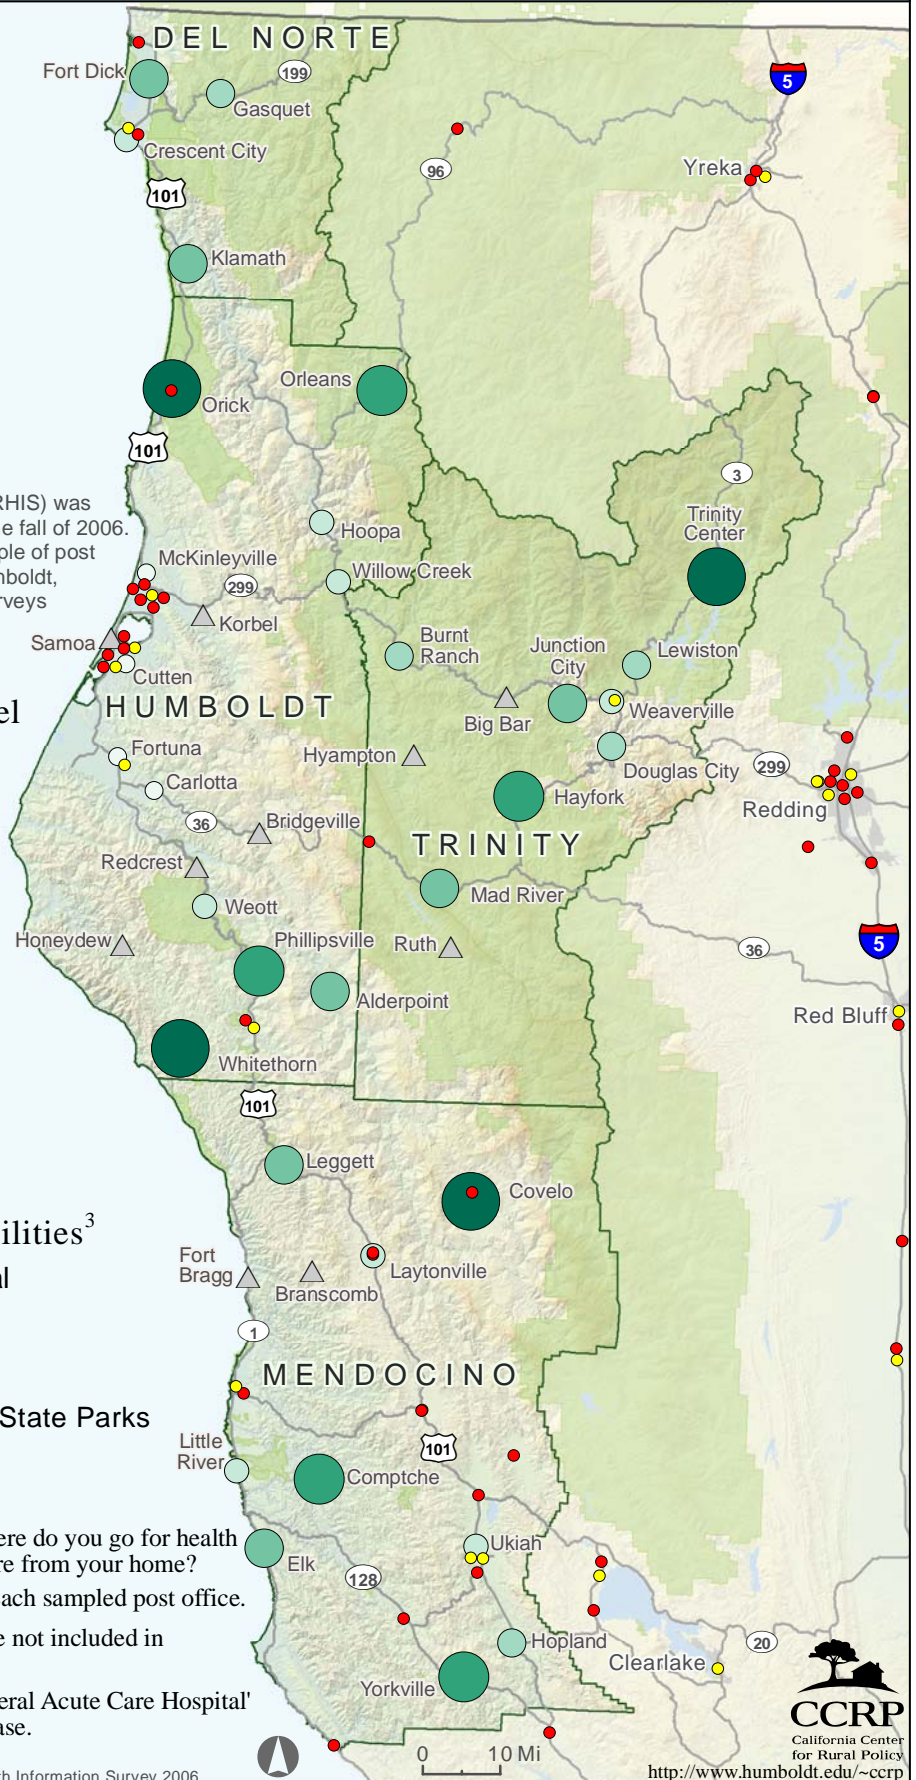

- 70 - 105
- 60 - 69
- 50 - 59
- 40 - 49
- 25 - 39
- 15 - 24
- Low sample size<sup>2</sup>

## OSHPD Licensed Health Care Facilities<sup>3</sup>

- General Acute Care Hospital
- Free & Community Clinics

## Public Lands

- National Forests, National & State Parks

<sup>1</sup>Data derived from RHIS survey question (8): Where do you go for health care? How long does it usually take you to get there from your home? Percentages are shown for survey respondents of each sampled post office.

<sup>2</sup>Post offices with less than 20 survey responses were not included in analysis due to statistical instability.

<sup>3</sup>Facilities shown are those classified as either 'General Acute Care Hospital' or 'Free or Community Clinics' in OSHPD's database.
