

CCRP Rural Health Information Survey: Percent of Respondents Without First Aid Training¹, 2006

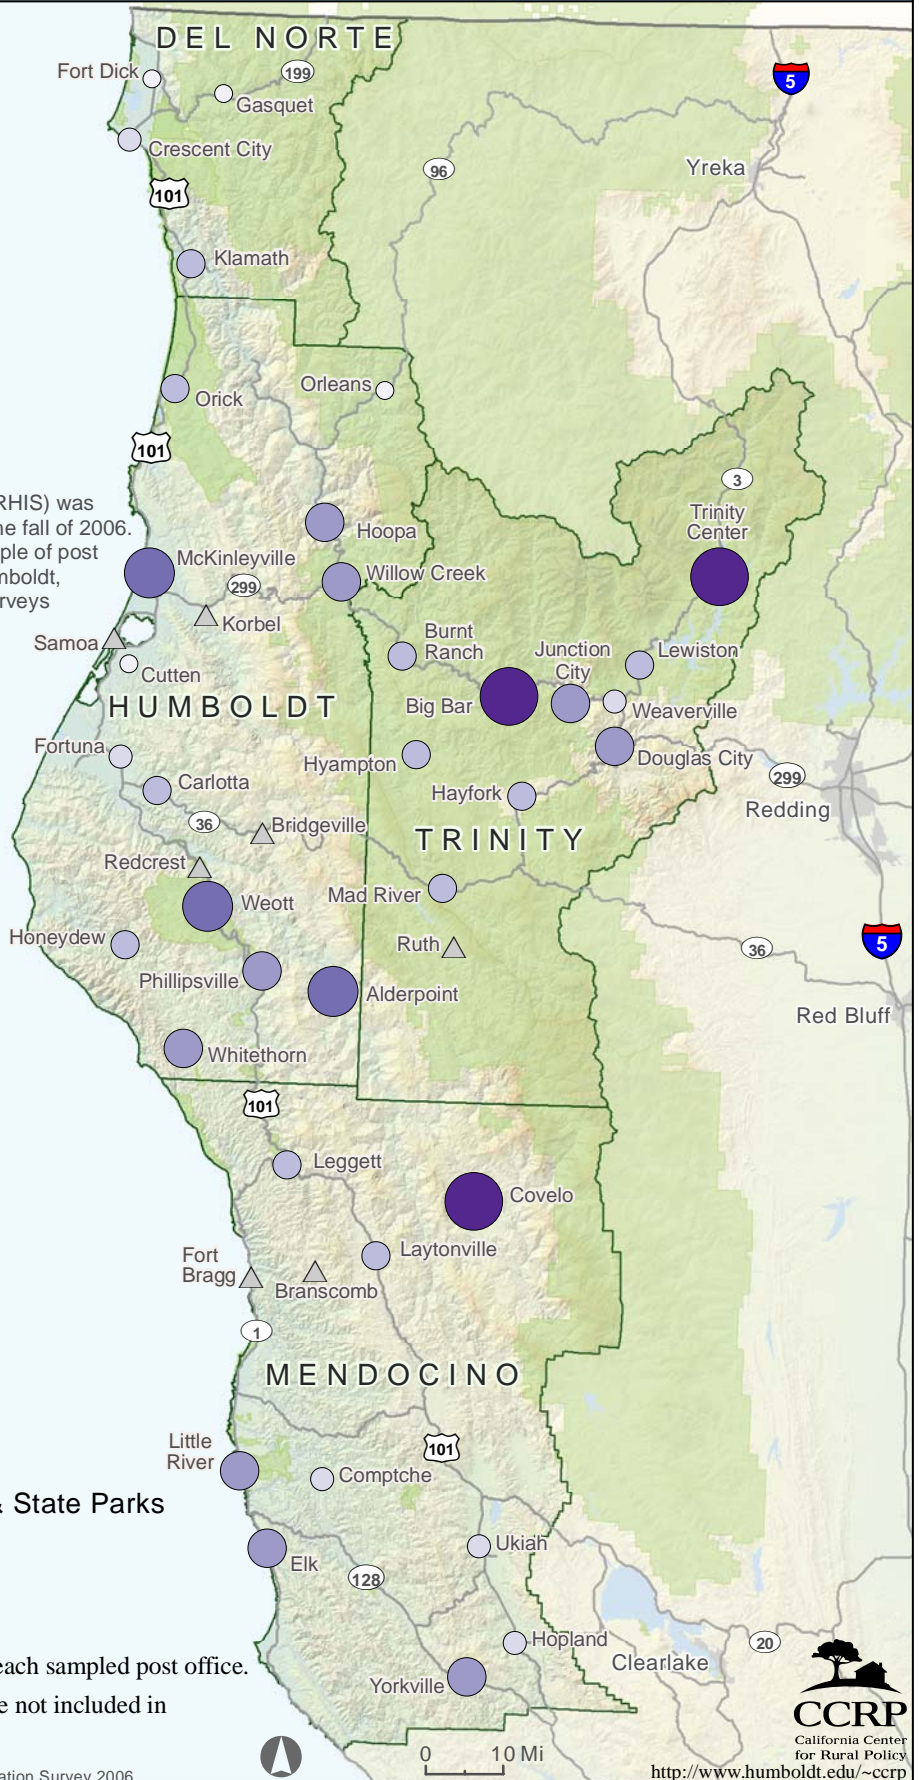

Study Methods: The Rural Health Information Survey (RHIS) was conducted by the California Center for Rural Policy in the fall of 2006. A total of 23,606 surveys were mailed to a random sample of post office box holders in the four counties of Del Norte, Humboldt, Trinity and Mendocino. The total number of returned surveys was 3,003 for an overall response rate of 12.7%.

Percent of Respondents Without First Aid Training

Public Lands

¹ Data derived from RHIS survey question (50):
Do you have training in first aid?
Percentages are shown for survey respondents of each sampled post office.

² Post offices with less than 20 survey responses were not included in analysis due to statistical instability.
